Description

- 1 - Ultra low:** The X-Type bed offers a very low position to secure the patient in the event of a fall during the night. Restraint can thus be avoided.
- 2 - Modular and customized bed:** The structure can be adapted depending the needs. Various options and accesories can be added at any time.
- 3 - EasyNursing:** The H-frame has been specifically designed to be lighter, with no retention zone. With its full-width sleeping surface, patient handling and comfort are optimised. We must work with you to reduce MSD.
